NOTICE

A Notice of Intent for the following project submitted in accordance with R307-401-1, Utah Administrative Code (UAC), has been received for consideration by the Director:

Company Name: RTE 73 Energy, LLC
Location: RTE 73 Energy, LLC - RTE 73 Power Plant – SW of Intersection E 1000 N and Magnolia Road, Eagle Mountain, UT
Project Description: RTE 73 Energy, LLC, has requested to operate a power plant near Eagle Mountain in Utah County. The power plant will include twelve (12) 47,000 kW, natural gas-fired turbines; one (1) 6.74 MMBtu/hr natural gas-fired heater; one (1) 1,340 hp, diesel-fired emergency generator engine; and one (1) 275 hp, diesel-fired emergency fire water pump engine.

The Eagle Mountain power plant has the potential to emit more than 50 tons per year of NO_x and is located in Utah County. Therefore, this project requires an emission offset of 1.2:1 under Utah Administrative Code Rule R307-421 (Permits: PM₁₀ Offset Requirements in Salt Lake County and Utah County).

The completed engineering evaluation and air quality impact analysis showed the proposed project meets the requirements of federal air quality regulations and the State air quality rules. The Director intends to issue an Approval Order pending a 30-day public comment period. The project proposal, estimate of the effect on local air quality, and draft Approval Order are available for public inspection and comment at the Utah Division of Air Quality, 195 North 1950 West, Salt Lake City, UT 84116. Written comments received by the Division at this same address on or before April 25, 2026, will be considered in making the final decision on the approval/disapproval of the proposed project. Email comments will also be accepted at cbodell@utah.gov. If anyone so requests to the Director in writing within 15 days of publication of this notice, a hearing will be held in accordance with R307-401-7, UAC.

Under Section 19-1-301.5, a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the Director to fully consider the substance and significance of the issue. **Date of Notice: March 26, 2026**
